New Hours:  
Wednesday - Saturday  
10:00 a.m. - 4:00 p.m.

**WHAT IS ReStore?** A Habitat ReStore is a retail operation that sells donated building materials and household items to the general public at **steeply discounted** prices. Typically, these are brand new, overstocked, discontinued or slightly damaged goods donated by area businesses or very gently used items donated by individual homeowners or contractors.

#### ReStore BENEFITS

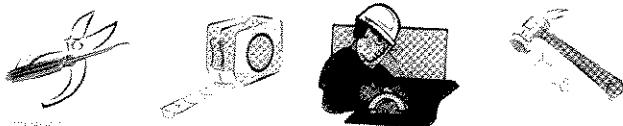

- Provide a significant source of income to support the MHFH mission of building homes for the families in need.
- Create jobs.
- The ReStore is a green machine (it recycles materials that would usually go to the landfill).
- Create opportunities to reduce home building costs by utilizing donated materials.
- Provide sweat equity opportunities for Partner Family members.
- Provide job-training opportunities for young people.
- Help publicize the Habitat mission to eliminate substandard and overcrowded housing conditions.

**WHAT IS the ReStore Process?** The ReStore Inventory Team solicits donations and arranges pick ups when necessary. Donated items and materials are priced to sell quickly to ensure inventory turnover. Not all items can be accepted for donation. There are guidelines as to what we will accept based on age, quality and condition.

#### DONOR BENEFITS

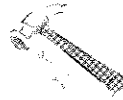

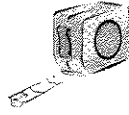

- Support the most cost effective builder of affordable housing in the business.
- Donations are **tax deductible**
- **Save on disposal costs**

**The Habitat ReStore has the right to refuse any donation for any reason. See backside for acceptable/unacceptable donations.** →

## Acceptable Donations

- **Appliances** in good working/physical condition (new or less than 6 yrs old)
- **Architectural Items** (columns, posts, mantels, antique windows)
- **Cabinets** with all doors/hardware and outer facings in good condition
